

# Professional cleaning detergents

## Selection Guide

# Electrolux Genuine Chemicals

The entire range of Electrolux Genuine Chemicals is the result of intensive testing in the Electrolux laboratories.

## We take care of your equipment

With Electrolux chemicals we commit to:

- Protect environment and people by developing Ecofriendly chemicals with high quality raw material and low environmental impact
- Create best performing and highly effective cleaning solutions with perfect balance between equipment and chemicals
- Guarantee appliances longevity by means of intensive and accurate laboratory testing, always ensuring the highest performance of the equipment and its components

# Taking care of the details

## Experts at your service

Our global R&D team and laboratory experts allow us to develop breakthrough technology in-house

## QR code

All Electrolux chemicals present a front label QR code for immediate safety data sheet download

## Safety Data Sheet

Safety Data Sheet viewable on all mobile devices: phones, tablets and computers  
Selecting the country provides the document in the foreseen local language

## Sustainable product

Our products meet extremely high environmental and climate requirements. Each product has overriding general criteria requirements as well as product-specific requirements.

## Controlled foam

A detergent composition having controlled foaming properties. In addition these formulations demonstrate excellent detergency properties when compared to currently distributed commercial brands.

# Dishwashing chemicals

## C11 Detergent for Dishwashers - code OS2092
